IT'S BAD ON BOYS.

Abolish Football, Says Jordan.

Game Should Be Prohibited in Secondary Schools, Says President.

Columbia University Official Is Even More Outspoken in Denunciation.

Dr. Hillis Declares Sport Breaks Sixth Commandment.

STANFORD UNIVERSITY, Nov. 27.—In response to a telegraphic query from the Chicago Tribune asking for his opinion on the game of football as it is played today, President David Starr Jordan replied by wire this morning that, in his opinion, the game should be entirely abolished in secondary schools, where the greatest evils from playing arise; and further, that "the greatest present evils rest on professional football."

Continuing, he said: "No man who has not done a man's work as a student should play; no one should play in more than four or five intercollegiate games in one season; a dirty player should be permanently ruled out of the game as they have made it."

"The game, with all its faults, has enormous usefulness and should not be given up without a resolute effort to clear it from parasites and abuses. I feel that, in my last analysis, I feel that it is a game which is a part of the life of the nation."

When he has had ample opportunity to see the widespread agitation against football, while in Washington he was present at a conference between President Roosevelt and Dr. J. J. White, professor of surgery at the University of Pennsylvania, where means to remedy the abuse of the modern game were discussed.

CALLS IT ABOMINABLE. (BY THE ASSOCIATED PRESS.—P.M.) NEW YORK, Nov. 27.—Francis A. Bangs, chairman of the Columbia University Committee on Athletics, today pronounced football, as played under the present rules and methods, "a brutal and abominable game."

He declared that they do nothing to better conditions, and that he did not think the revision of the rules could be entrusted to them now with any confidence.

Of a proposition made some months ago to refer the question of stopping football to the athletic associations of the various universities, Mr. Bangs said: "You might as well trust the cooking of a steak to a cage full of lions."

President Butler said that he was not ready to make a statement for publication but that the views of Mr. Bangs appeared to him to be entirely sound.

The University Council several years ago authorized the president to appoint a university committee on student organizations, athletic and otherwise, which in any way represent the university before the public. It is in the power of this committee to take whatever action on the question which seems to them wise.

It was said today at Columbia, apparently on good authority, that President Butler has only awaited the end of the football season before calling this committee together and urging it preemptively to forbid the further participation of Columbia students in the game of football as it is played at present.

WANTS IT CUT OUT IN CHICAGO. (BY THE ASSOCIATED PRESS.—P.M.) CHICAGO, Nov. 27.—Almerman Harris of the Ninth Ward tonight introduced in the City Council a resolution requiring Corporation Counsel James Hamilton Lewis to prepare an ordinance prohibiting the playing of intercollegiate football in this city until the rules regulating the game have been modified and changed to eliminate the present danger of serious injury to players. The resolution was referred to the Committee on Health.

The resolution is as follows: "Whereas, Numerous casualties have been reported from football games this season, where a number of deaths and serious injuries occurred among the participants; and

"Whereas, The game as it is played at present is a danger to the health and life of the participants; and

Passing of the Heir to Millions.

Only Son of Chicago's Most Wealthy Merchant Dies of Gunshot Wound.

Expires Clinging to Crucifix After Receiving Consoiations of the Church.

FATHER BOWED WITH GRIEF. Fortune Goes to His Grandchildren.

CHICAGO, Nov. 27.—(Exclusive Dispatch.) Marshall Field, Jr., died at 5 o'clock this afternoon at the Mercy Hospital. He passed away quietly and almost without pain. He was conscious to the last and knew for hours the fate that was in store for him.

With him at the time of his death were his father and his wife. Other members of his family were in a room adjoining, but were not at his bedside. Coroner Hoffman was notified of Mr. Field's death and sent a deputy to take charge of the body.

Today he will impanel a jury and hold an inquest to determine the cause of the young millionaire's death.

Mr. Field died from a gunshot wound inflicted Wednesday afternoon while he was alone in a room at his private residence. The shooting is believed to have been accidental. His condition remained so critical that no clear account could be obtained.

Mr. Field was given his last rites by Rev. Hugh McGuire, pastor of St. James Roman Catholic church when he was first announced that paralysis had set in. When it was certain this afternoon he was about to die the viaticum was administered.

At the elder sister Virginia gave the dying man her crucifix. He clasped it to his breast with one hand. His other hand was in his wife's who sat beside his bed. He and she repeated their prayers together. He still held the crucifix when he died, and his wife repeated his hand for some minutes after it was announced that he was dead.

Marshall Field, the father of the dying man, stood beside the bed. He watched his son away with his eyes wet with tears. When death finally came, Mr. Field, Sr., escorted his daughter-in-law, who was completely broken down from the shock and the weary watch by her husband's bedside, from the hospital to her home. Both wept as they left the hospital.

CHILDREN ABSENT. Mr. Field's children were not at the hospital when he passed away. His daughter, Gwendolyn, and his son, Marshall Field, III, now Marshall Field, Jr., and his brother Henry, heir to the Field fortune of \$50,000,000, saw their father for the last time Saturday afternoon. Henry Field was not in the city at the time of his father's death. He had been kept at the Paye School, near Boston, and was only summoned here tonight, after his father had expired. HARVARD FREE "AD." FOR YALE? A CRIMSON GRADUATE WANTS RELATIONS SEVERED.

Says New Haven Institution Keeps on Athletic Speaking Terms Solely to Be Able to Pose as Peer of Yale as Institution of Learning.

BOSTON, Nov. 27.—(Exclusive Dispatch.) That Harvard has not kept its word in the matter of severing relations with Yale, its rival for thirty-five years, a strongly argued by an anonymous graduate in the December number of the Harvard Graduate magazine. The writer says that Harvard cannot adopt Yale methods and be true to her ideals, that she cannot win without Yale's methods and consequently further contacts with Yale are only advertisement for that university.

The letter states that while Yale has not kept pace with Harvard in offering greater opportunities for the pursuit of knowledge and says that the New Haven university is anxious to maintain the position which it has in the public mind as a school on a par with Harvard.

Thanks to the linking of Yale's name with Harvard in the sports of the past thirty years, the public, in its haphazard fashion, has gone on supposing that Harvard and Yale were on a level as institutions of education.

The truth has been, of course, he says, that while Harvard has steadily held the head of American universities since 1875, Yale has dropped to sixth or eighth place in point of attendance and has been outstripped by four, if not five, other universities in offering of high-grade instruction and in its professional schools.

MARSHALL FIELD, JR.

the reason for their being kept away from the hospital.

Hope for Mr. Field's recovery was virtually given up early this morning. The dying man awoke at 8 o'clock in the morning. His temperature was about the same as it had been the previous evening. The increase in the pulse from 75 to 95 was considered alarming, but was not believed to show that hope for his recovery had disappeared. Shortly afterward, Mrs. Bevan and Billings arrived. At 9 o'clock they abandoned all hope and announced that Mr. Field was failing rapidly.

FATHER AT BEDSIDE. As soon as this bulletin was issued Marshall Field and his wife were sent for. The father went to his son's bedside and bent over him. Then he turned to the physicians. They called him aside and then told him and Mrs. Marshall Field, Jr., that there was no hope. Mrs. Field stood quietly by her husband's bedside. She took his hand. Her father-in-law followed her into the sickroom and stood looking at his son. The shock was a great one to both. They had received the news of his death.

HEIR TO MILLIONS. The death of Marshall Field, Jr., leaves his children, Marshall Field, III, and Henry Field, the principal heirs to the fortune of \$50,000,000, which Mr. Field has made in business. Marshall Field, Jr., was an only son of the great merchant. Mr. Field has a daughter, but she is residing in England, having married a British army officer. It was always believed that Marshall Field, Jr., would inherit most of his father's money. It will now go to his two sons and his four-year-old daughter, Gwendolyn. The two boys are both young. Marshall Field, III, is the elder of the two. He is twelve years old. He has been sick recently, but his health is generally good. Henry Field is a robust boy. The daughter, Gwendolyn, is a pretty child of four.

Mr. Field was 27 years of age. From boyhood he was of frail constitution. He matriculated at Harvard in 1885 but failing health compelled him to leave college after two years. Soon after his return to Chicago he was married to Miss Albertine Hook, a noted beauty.

Mr. Field's health made it impossible for him to enter business. A long

According to a law a magistrate may not take into consideration resemblances in cases where parentage is in doubt, but Judge Alexander handles things differently.

Ruth McConnell, the credited mother of the little one in dispute, who, according to the testimony, abandoned the baby at its birth to the care of Mrs. Sherlock, who thereby duped her husband, now claims the baby and will make every effort to get her. Recently Judge Alexander, unable to decide who was the mother of the baby, took it to his home.

Party of Twenty Insurgents and Government Forces Clash Near Center of Havana Province and Former Flew Toward Mountains and Across Fields.

(BY THE ASSOCIATED PRESS.—P.M.) HAVANA, Nov. 27.—The first shots between Rurales Guards and insurgents were exchanged today near the center of Havana province.

A telegram has been received from the captain of the Rurales Guards saying that his detachment discovered a party of twenty insurgents led by Mario Rodau and Rafael Castillo.

The party, says the telegram, after an exchange of shots, fled, some toward the mountains and others across the fields. Nobody was hurt with the exception of a sergeant of the guards, who was thrown from his horse. It is reported that Rodau was wounded, but this is not confirmed.

INSURGE ALL IS QUIET. (BY THE ASSOCIATED PRESS.—P.M.) HAVANA, Nov. 27.—(Exclusive Dispatch.) Gov. Nunez insists that all is quiet in Havana province; if any persons, after talking, had left home for the hills they would not be disturbed unless they committed some act of violence and nothing of the kind had yet occurred. He laughed when his attention was called specifically to Señor Pina Guerra, who is rumored to have taken charge of a band of rebels, and said that Señor Guerra is actually in Havana. No arrest is known for the cause of his arrest.

COME TO CAPITAL.

Russia's Appeal to Ambassadors.

Presence at St. Petersburg of Representatives of Powers Is Desired.

Officials on Banks of Neva Profess Optimism as to Sebastopol Events.

Mutinous Soldiers and Sailors, However, Yet Under Flag of Revolution.

ST. PETERSBURG, Nov. 27.—It is understood that the Russian government has given an intimation to the Foreign powers of the advisability of the presence of their Ambassadors here during the present crisis.

The Workmen's Council has telegraphed congratulations to the mutineers at Sebastopol.

ST. PETERSBURG, Nov. 27.—a.m.—Though the mutineers at Sebastopol are still master of the situation at Admiralty Point and though armed parties have apparently free access to the town, notwithstanding the announcement by the authorities that the roads leading to it were blocked, dispatches received yesterday from Vice Admiral Chuchin, commanding the Black Sea fleet, present the situation in a pessimistic light.

On the other hand, dispatches to the Associated Press from Sebastopol say that revolutionary crises succeeded yesterday in winning over a battalion of reservists and that in spite of the arrival of reinforcements to the number of several thousand, the authorities did not dare to interfere with a review held by the mutineers before the Cathedral of St. Vladimir, which is in the heart of the town.

DEMANDS OF MUTINEERS. So far as known, most of the demands of the mutineers have to do with service conditions, including the release of reservists who have served their time, increase of pay, increase in the allowance of food and the removal of alleged incompetent and brutal officers.

Report of a determination to proceed to martial law, nothing of a definite nature has transpired regarding the decisions arrived at by the Admiralty Council, but it is reported that the council agreed as to the justice of many of the demands made by the mutineers and would recommend to the Emperor that immediate steps be taken to ameliorate the condition of the sailors.

The latest dispatches from Sebastopol say that the mutineers forced the evacuation of the cruiser Odissey to leave the ship. The crews of the battleships Rostislav and Tisla Svistoslav, so far as at present known, have not mutinied. One reserve battalion, however, has joined the mutineers.

and Sebastopol the railroad has been
torn up.

(Quins command all the entrances to
the city from Admiralty Point, where
the minefields are quartered, and the
sailors are virtually prisoners there.)

The battleship Panin, formerly the
Knia Potemkin, and the cruiser
Ochakov are in the bay and in con-
trol of the minefields, who have placed
their officers under arrest.

The remaining ships of the Black
Sea fleet are off the southern road-
stead. Their crews have not joined in
the mutiny.

Reinforcements are also on the way
to Sebastopol from Odessa and Pavlo-
grad.

It is reported that Vice-Admiral
Chibrikov is parading with the muti-
neers, offering to accede to all their
demands relative to the improvement
of service conditions.

ORDERED TO YIELD ALL.

A dispatch from the American consul
at Sebastopol, which reports the
outlook much less threatening, says it
reported that the Black Sea fleet, with
received orders from St. Petersburg to
yield everything.

The Russian consul is chartering a
vessel to take off the subjects of Great
Britain.

The Russian Gazette publishes a dis-
patch from Sebastopol saying that dis-
cord has already broken out among the
mutineers, offering to accede to all their
demands relative to the improvement
of service conditions.

MUTINEERS KILL OFFICERS.

VLADIVOSTOK, Nov. 27.—The Rus-
sian prisoners returning here from
Japan are in such a state of mutiny
because it is impossible immediately to
ship them back to Russia that it be-
came necessary to form a camp where
they are held under guard.

Saturday, there was a tragic upris-
ing at the camp at Cape Choukai,
where a thousand prisoners from Port
Arthur are confined. A drunken soldier
who refused to salute an officer was
seized on the spot. His comrades
rushed to his aid, and the officer was
killed. The mutineers then seized the
officer's club, where he was joined
by four other officers. They all made
a hard fight with the mutineers, but
before the arrival of a squadron of Cos-
sacks, which had been hastily re-
manned by telegraph, three of the of-
ficers were killed and one was terribly
wounded. About twenty men were killed
or wounded in the struggle.

REBELLION ON THE LENA.

Men from the vessel while ashore have
been seen in the streets of the city.

KILLED WHILE BLASTING ROCK.

KANNAH CITY, Nov. 27.—One per-
son was killed and twelve were injured,
some seriously, today, as the result of
blasting rock at Ninth street and
Grand avenue, in the center of the
business district, where an excavation
is being made for an office building.
The dead man is Andrew Knight, aged
38, a laborer who was working on the
work. He was instantly killed. The injured
were men and women, watching the
work. Their hurts consist of cuts and
bruises. Dozens of windows in the
vicinity were broken. The up-
heaval resulted from a too heavy
charge of giant powder.

Celebration of Anniversary of Land-
ing of Hebrews in America Brings
Out Facts Relative to Part Played
by Persecuted Race in Discovery of
New World by Columbus.

(BY THE ASSOCIATED PRESS—P.M.)
WASHINGTON, Nov. 27.—Consular
advice by cable are to the effect that
during the recent riots in Russia, fifteen
Jews were killed at Rostoff, sev-
eral were wounded and ten thousand
were financially ruined. Uprisings
against Jews are reported from Bah-
mout, Lugansk, Mariupole, Chas-
tchek and Katerinograd.

ANNIVERSARY CELEBRATIONS.

(BY THE ASSOCIATED PRESS—A.M.)
NEW YORK, Nov. 27.—There were
more celebratory yesterday of the
350th anniversary of the landing of
Columbus in America. Rev. Dr. Joseph
Krauskopf of Philadelphia delivered
the invocation at the ceremony at the
Pilgrim Fathers' before the Young
Men's Hebrew Association.

"It has been the lot of the Jew
in the United States," said Dr. Kraus-
kopf, "and blessed him it is a marvel-
ous story, that of the setting of the
Jew in the western continent, and the
more we read and study it, the
stronger grows the belief that it was
the hand of Providence that opened for
Columbus and for the Jews accom-
panying him the portals of the new
world to afford a resting place at last
to the tribe of the wandering foot and
weary breast and a haven to all others
seeking shelter and peace."

Rev. Madison C. Peters of the Church
of the Epiphany delivered a lecture last
evening on "What the Jews Have
Done for America." Dr. Peters pointed
out that two Jewish merchants, Luis
de Santangel and Gabriel Sanchez, sup-
plied the funds for Columbus' expe-
dition. Isabella did not sell her jewels
to fit out Columbus, he said, for she
had already pawned or sold them to
defray the expenses of the wars then
devastating her country. The scientific
inventions of the Jews alone made
possible Columbus' scientifically well-
planned voyage. The first white man
to set foot on American soil, Dr. Peters
declared, was a Jew, Luis de Torres,
the interpreter of the expedition.

MANY VESSELS DRIVEN ASHORE.

LONDON, Nov. 27.—Great aggregate
damage was done to the coast towns
by last night's storm. Many small
vessels were driven ashore. The small
coasting steamer Peridot of Glasgow
was wrecked on the coast of the island
of Man. The crew was lost. Seven
bodies have been washed up. The pro-
prietor of the ship, James Macdonald,
the Red Star line steamer Kronland
and the Hamburg-American line
steamer Fatic, bound for New York,
embarked their passengers at Dover
this morning, after which they con-
tinued their voyage.

REPLACING THE CLOTHING AND ACCOUTRE-
MENTS OF HIS PROFESSION.

(BY THE ASSOCIATED PRESS—P.M.)
SAN FRANCISCO, Nov. 27.—The
State Supreme Court today decided
that a man who lands money on a
chattel mortgage can legally charge
any rate of interest that the borrower
will agree to pay. This decision in-
validates the act passed by the Legis-
lature last March limiting the interest
on chattel mortgages to 10 per cent
per month.

K. Solonchik, who was arrested for
charging an illegal rate on a loan se-
cured by a chattel mortgage, brought
the new law into court by resorting to
his own corps proceedings.

The Supreme Court held that the law
limiting the rate of interest was un-
constitutional in that it restricted the
right of contract.

Whaling Ships Seek Crews.

SAN FRANCISCO, Nov. 27.—The
whaler, Alice Knowles dropped into the
stream today to recruit crew for the
long cruises of the coming season.
Her example will be speedily followed
by the rest of the fleet now here. The
small catch of this season and the
fact that a dozen whalers are frozen
in the Arctic Sea encourages owners
to hope for high prices, if not larger
catches, during the coming year.

McCord to force men to work on the new city buildings they are erecting in New York City. The president of the International Order of Bridge and Structural Ironworkers, James J. McCord, has been insisting for this action, which now forms the basis for a general strike.

The union men put to work on the three buildings were quartered in new buildings on Fourteenth street between Ninth and Tenth avenues and on the 22d and 23d streets were escorted under guard to the city jail.

It was declared that if the men are not taken off a strike will be declared tomorrow.

James McCord has the support of the Employers' Association of which Mr. McCord is president, and if the strike is declared it is probable that the city will be without water. It will stand by the firm and work on every building in the city will be stopped.

There never has been a time in this city when so many strikers were being put up, and if the members of the International Union of Bricklayers and Housewives' Union use tools tomorrow, 16,000 men at work in the city-old big buildings through-

Victor in Fight at Annapolis Will Tell What He Knows About Fatal Affray With Branch.
(BY THE ASSOCIATED PRESS.—P.M.)
ANNAPOLIS (Md.) Nov. 11.—No great progress was made today in the trial by court-martial of Middleton Minor Meriwether on the charge of manslaughter that embraced one of manufacturers' sons in Paris, was the victim of an affray by rowdies in one of the most fashionable streets of the capital last night, and was beaten to death only through the timely arrival of the police. Charge d'Affaires Brady reported the affair to the authorities at Washington.

Mr. Bliss was returning to the embassy on foot from the yacht club, and had been dining. On the way he was overtaken by a party of

Most of the testimony offered today was by midshipmen, and related to details of the fight and events that took place. During the afternoon session midshipmen W. Fitch and L. R. Moray, respectively, were sworn as keepers of the fight, were recalled and again went over their testimony as to

Thursday, making a landing sight, in imitation of actual war. Two thousand soldiers are assembled in the forts with full equipment, awaiting orders. They are ready for departure, with the squadron, for Venezuela. Beach preparation is being made for a conflict. The city and the smooth surface boards.

Michiganman Ralph Feager, who was Meriwether's second, said that latter had slipped in the fifteenth round, spraining his ankle, and that he was almost disabled thereby, but said he could continue the fight, though he could do little to defend himself.

BREVITIES.

"Times" "Lines" Advertisers—Important change in rate for Sunday classified advertisements. Commencing Sunday, October 1, 1933, and thereafter, the rate for Sunday "Lines" will be 14 cents per word for each insertion; minimum charge, 25 cents, as at present. This slight advance is amply justified by the present Sunday circulation of the Times, which averages over 60,000 copies. (When the 1-cent per-word rate was established in 1923, the Times Sunday circulation was only 14,000 copies.) The "Lines" rate for the daily—1 cent per word—will stand as at present.
